Melancholy Insanity.—We are informed that A. B. Wynkoop, once a prominent citizen of Waukegan, and the pioneer editor in that young city, is now an inmate of an insane asylum in California. He had become a believer in "Spiritualism," so called, and the spirits had invited him to knock down every person whom he heard doubting the truth of the spiritual theory. He attempted to obey the command so often and persistently that no resource was left but to lock him up in a mad-house; there he now is, a hopeless lunatic.—*Chicago*

CALIFORNIA MARBLE.—A man who was recently discharged from the Insane Asylum, cured, and who is a stone mason by trade, has discovered a valuable marble quarry in Calaveras County. The grain of the marble is pure, and the stones present quite a handsome appearance. At the same time he found an inexhaustible supply of freestone—suitable for building purposes. He has specimens in his possession, and, as this freestone is easily worked, there is no doubt that ultimately it will be extensively used.

ANOTHER INSANE MAN.—There is scarcely a day passes but we record a case of insanity. California seems to be peculiarly unfortunate in this respect We doubt not but there are more insane persons in this State, according to the population than any other State in the Union. Yesterday Mr. W. A. Nunnally, Sheriff of Shasta county brought down to this city, and lodged in the Station House a crazy man who calls himself "Uncle Sam," alias Thomas Stormer. He has been in Shasta city and vicinity for some ten months, working just enough to pay his board. His mind has been deranged slightly for some time past, but not enough to require his removal to the Asylum until within a few days. We were not able to ascertain from what State he came. He is singing almost all the time. He seems to be fond of gambling, and says he is the greatest gambler in the country, and has lost everything he had gambling. He is an Irishman by birth, and has evidently been a sailor. He is about 35 years old.

Has been drinking for several weeks. and had "delirium tremens for two days during which time he was confined in Station House. Cl. not married and a sailor.

INSANE.—The San Francisco *Evening News* says, that a woman named Catherine Congden was found wandering about the streets in that city on Monday evening last. She was taken in charge by a policeman, and lodged in the Station house. This makes the fourteenth person who has been found in their streets during the past month. bereft of reason.

AN ANTI-KNOW NOTHING.—A man named James Brown, who was found wandering in the streets in an insane condition, was yesterday sent to the Stockton Lunatic Asylum. Since he has been in the City Prison, his constant assertion to every person who conversed with him was that he was not a Know Nothing, but that the Know Nothings were determined to take his life, and begged to be protected from them. He appeared to labor under the impression that members of this association were constantly dogging him about to kill him.

EFFECTS OF INTEMPERANCE.—A Sacramento paper says that Mr. Howe, formerly Clerk of the Senate, and who was confined in the Insane Asylum, a short time since, was put into the Station House on Thursday, under the charge of insanity. He will, probably, be again transmitted to Stockton. It is pretty well ascertained that the aberration of the mind is caused by the immoderate use of alcoholic drinks.

FREAK OF A LUNATIC.—An insane man, named Mr. Dogget, was placed on board the steamer Bragdon last evening, in company with five others, to be conveyed to the Stockton Asylum. Soon after the boat left the wharf Dogget managed to elude the officer in charge of the party, and springing overboard, succeeded in reaching the shore, where he was immediately taken in charge by a policeman who witnessed the incident. Dogget was released from the Stockton institution some weeks since, and has no inclination to return.

Insanity.—A man named Andrew Sheppard who arrived in the Auburn Stage yesterday, was taken charge of by the police who met him perambulating the streets last evening, evidently insane. It was discovered that Sheppard has lately been residing at Miner's ravine El Dorado county. Money to the amount of one thousand dollars, and about forty dollars in gold dust, were found on him. From his mutterings, it would seem probable, that extreme anxiety for the treasure he had with him, caused aberration of mind.

☞Chas. Fenno Hoffman, the popular author, is now an inmate of the Pensylvania State Lunatic Asylum nea Harrisburgh, a frightful case of incuracle insanity. The Harrisburgh Herald states his case in these terms:

"Although at times he appears dreadfully excited, yet a ray of rea-on will momentarily fill through his shattered intellect, and, as the eloquent language of a gifted soul falls from his lips and reaches the ear of the awe stricken visitor, a tear of sympathy will volu..tarily gather in his eye for the fate of the unfortunate maniac!"

Hoffman has written many wild tales of forest life and some highly popular poems. His name has been honored among those that adorned and created American Literature. When a boy he lost his leg by an accident, and this circumstance made him a student.

SPIRITUAL RAPPING MAD.—The *Times and Transcript* says that a miserable woman was taken to the San Francisco station house on Wednesday last. Her name was Mrs. Gillean Kelly of Petaluma. The poor creature could not be induced to keep any garment upon her but a calico skirt. She howled and roared at a fearful rate, the burthen of her talk appearing to be of a religious nature. "Three in one" and "spiritual rappings" formed a great portion of it. The unfortunate woman will be conveyed to Stockton.

The Insane Asylum.

A Legislative Committee, composed of Drs. McFarlane and Bates—the same who made the investigation of the affairs of the State Marine Hospital—have been engaged during this week in an examination of the affairs and management of the Insane Asylum at this place. We are pleased to learn from authority that after a thorough investigation, the committee have not found any evidence of the least mismanagement or irregularity in the administration of the institution. Everything has been conducted with the strictest economy consistent with the interests of the patients and the utility of the institution. This is a most notable exception to the general rule that has obtained in California in the management of public business, and it reflects credit upon the Trustees and Physicians. The committee return to the capitol to-day.

AN IMPORTANT DECISION - GOV. JOHNSON'S POWER. - The San Joaquin "Republican" says: In the matter of the Attorney General at the relation of Dr. Langdon against Dr. Reid, Judge Creanor has decided, after full argument, that the Governor's appointment of Dr. Langdon is void; that there was no vacancy in the office of Resident Physician to the Asylum, authorizing the Governor to commission Dr. Langdon.

A LUNATIC.—Henry Stiles, a maniac, was brought here from Michigan Bluffs on Thursday, and left in the stage yesterday, in charge of the proper officer for Stockton.

The patients' records written by Dr. Reid are interesting because of their brevity, conciseness, and graphic description:

Age 39. Came from San Francisco to Stockton. Deranged one month or more. Cause, love, courtship, matrimony and a fight. As a solace, bad liquor and opium. The finale, "Mania a potu," the police office and the hospital. 1852, October 1, repentance. Discharged. A feast, a dance and departure to San Francisco next day.

Phillip K. of New York. From San Francisco to Sacramento, thence to Stockton. A clerk and not married. In California one and one-half years. Noisy, preaches on religion, temperance, injustice of mankind and the re-organized nation of society.

1852, May 14. John D., Medina County, Ohio. Came across the plains in 1850. At home a farmer, in Cala—a miner. At Hangtown, Eldorado County, stole a horse, saddle and bridle. Was caught and tried in a Mustang Court. Was sentenced to be hung and led out for execution when some of his friends arrived and proved his insanity, when he was released and brought to the hospital. Weak and emaciated from the effects of chronic dysentery. "Dementia." Not married. Parents live in Seville, Ohio. October 18, 1852—died.

1852, Dec. 10. Walton Van L., New York. Age 18. A young man of active mind and good education. Says he is a professor of drawing and painting and a teacher of music. Was engaged on the Coast Survey under Lieut. Davidson. For 16 days and nights was constantly at work on a map. Probable cause—continued mental excitement and severe application; was also in love with Kate Hayes a "ventriloquist." Sent by Mayor of San Francisco to hospital. Has been bled and blistered, purged and fed on water and bread with seton in neck, etc. Ordered: tincture iron wine and a nutritious diet and an opiate at bed time. Address: Father W. D. Van L., U.S. Ap. Off., San Francisco. January 5, 1853, discharged and sent to San Francisco

INSANITY.—This fearful disease appears to be alarmingly on the increase in California.—We hear of cases from all parts of the State, and scarcely a week passes without an instance in this city. Two men, laboring under aberration of intellect, are now in the Station House awaiting an order from the Court, to have them conveyed to Stockton. One of them gives his name as Brickle, says he is from Niagara county, N. Y., has lately lived at Stony Bar, on the Sacramento river. He is about thirty years of age. From his remarks and actions, he is suffering evidently from some internal complaint; which has bereft him of reason. The other patient is named Campton, about thirty-five years of age, and from Martha's Vineyard. He rushed into the Station House very eaaly yesterday morning and implored the police to lock him up as a mob was pursuing him. His wish was immediately complied with. On examining him it was discovered that he had been severely bitten, by a dog, in the calf of the leg.

Insane Persons.—There are now three persons afflicted with insanity, in the Station House, who, in accordance with an order from the County Judge, will be removed to Stockton to-day. One of them, William Watson, was found last Tuesday night by a lodger at the National Hotel, in his room. Watson was arrested as a suspicious character, but at his examination before the Recorder, it was seen that his reason was impaired. Watson is from Mineral Point, Wisconsin, and is about twenty-five years of age. James Smith, steward on board the steamer Enterprise, and who was employed on the ill-fated Pearl at the time of the explosion, in a fit of insanity jumped overboard, yesterday, from a steamer lying at the levee. A boat immediately put off to his rescue. After being drawn up, he attempted to drown himself twice, by leaping from the boat, notwithstanding the exertions of the boatmen. After a great deal of trouble, he was confined in a cell. Smith is a young man not more than twenty years of age. Erastus Scarbro, twenty-five years of age, formerly of Calaway county, Mississippi, was found wandering about the streets in a state of insanity, yesterday. He was taken charge of by two policemen and confined.—*State Journal, 11th inst.*

AFFECTING.—On Sunday, an insane woman, with a poor little child in her arms, was found lying on a vacant lot, on Stockton street, San Francisco. Neither of them had more than a rag around them. The *Times and Transcript* says that the woman was seduced and abandoned by a fellow who formerly played a violin in a gambling saloon. It is said the city is too poor to send her to Stockton.

A SHAME.—An insane Spanish woman, with an infant child, is in the city prison and can not be sent to Stockton for want of funds.

Nov. 10. Discharged & sent to
Sacramento.
in company with Mr Biggs

INSANE.—A man named George McCullum, a Scotchman by birth, late from Baltimore, was arrested yesterday morning while wandering about the streets in a state of insanity. He is forty-five years old and has lived in San Francisco and Sacramento since he came to California. He says he is a Know Nothing, or believes in the principles of that order. It is probable that he has joined that delectable institution, taken a false oath, and like an Irishman we know, has become a fit subject for the Stockton Asylum. We would not be surprised if others of the order lost their reason from the same cause.

MADNESS.—A most melancholy spectacle was presented last night in the station-house. A Mrs. Gillean Kelly was brought from Petaluma in the afternoon, and lodged in the station house for safe keeping till she could be conveyed to Stockton. The poor creature could not be induced to keep any garment upon her but a calico skirt. She howled and roared at a fearful rate, the burthen of her talk appearing to be of a religious nature. "Three in one" and "spritual rappings" formed a great portion of it. The unfortunate woman will be conveyed to Stockton to-day.

UNFORTUNATE.—Among the sufferers by the fire at San Francisco, on Saturday last, was a Madame Souffern, whose sad fates gives her strong claims upon the charitable. Five times has she lost everything by fire. At one conflagration $45,000 was swept away, which loss drove her husband crazy, and he is now at Stockton. Madame Souffern is again destitute, and we learn that some steps are to be taken for her relief.

INSANITY.—Judge Freelon on last Wednesday ordered Mr. Henry B. Lafitte to be taken to the Stockton Insane Asylum. Mr. Lafitte was recently of the firm of Thomas J. Poulterer & Co. His mental alienation has been increasing for some time, until kindness dictated this step taken as the only merciful one. This is a sad thing, but there is hope that the judicious and attentive care of the officers of that home for the most unfortunate of their race, may yet restore him to reason and his many friends.

ATTEMPT TO SELF-MAIM.—A young man named J. T. Anderson, aged about 25 years, formerly from East Tennessee, who has been insane for more than a year, made a deliberate attempt to cut off his right arm, a short time since in Sacramento. To effect his purpose he had erected and boxed in outside of his cabin a piece of scantling smoothly planed and well greased, that it might play freely with its own weight. In the lower end of this he had inserted a new chopping axe with a keen edge, and beneath it had imbedded a block firmly in the ground. Attached to the casing near the top of the scantling, he had rigged a small block through which he passed a string, one end of which was fastened to the scantling and the other near the block beneath, the scantling being sufficiently raised to attain considerable force in its deseent. Everything being adjusted to his satisfaction, he placed his arm upon the block and set fire to the string. The axe fell fortunately, upon the exterior surface of the fore-arm, just above the wrist, cutting through to the bones, and turning the edge of the instrument. An acquaintance, who was inside the cabin, hearing his groans, proceeded immediately to investige the cause, and found him bleeding profusely. As soon as possible thereafter Dr. Taylor was summoned, and dressed the wound as well as circumstances would admit, after which the patient was placed upon a dray and taken to the station house, and subsequently to the County Hospital. We understand that he made an attempt to destroy one of his eyes about a year since, and partially succeeded, but that the ball being not entirely destroyed, the effort was repeated a few days since, a spring lance attached to a stick having been used for the purpose. When questioned as to his motive in the premises, he replied that the eye and arm offended him, and on his way to the station house assured his companions that the latter "must come off," that he would never be good for anything with it. It is said that he is a monomaniac on the subject of religion. —*Union.*

INSANE.—Another pitiable case of insanity, consequent on pecuniary embarrassments, was lodged for safe keeping in the Station-House, on Saturday last. It was that of a French woman named Genbele, who was brought there by her husband to undergo a proper medical examination previous to her removal for treatment, to the Insane Asylum at Stockton. Mons. Genbele stated, that she had been in that condition, since August last; but monetary distress had at last compelled him to resign his personal care to that of others. In our opinion, he would have done well to have followed this course at the outset.

Narrow Escape of a Maniac.—As F. A. Bee, Esq., who is agent for the Silver Creek Ice Company, was returning from the Mountains on Sunday evening last, and when near the junction of Johnson's Cut-Off and the old Carson Valley road, he discovered a man secreted in the bushes a few yards from the road. Believing him to be one of the numerous highwaymen that at present infest the mountains, Mr. B. drew his revolver, and riding up within a few yards, ordered him out of the bushes, at the same time stating that he was fully armed.—The man immediately stepped out from his place of concealment, exclaiming, "Shoot—I deserve to die!" Mr. Bee discovered at once that he was a maniac; his emaciated appearance indicated that he had been wandering about in the mountains for some time, without food or shelter, save such as is furnished by the hand of nature to the beasts of the field. He was so weak that he could scarcely walk. Mr. Bee, however, by dint of perseverance, succeeded in bringing him to within a short distance of Sportman's Hall, and on arriving there and making known the sad condition of the poor sufferer, a party of gentlemen started out and brought him to the house, where he was generously attended to. Officer Shields, of this city, being informed of the above facts, with his wonted promptness, brought the poor fellow to our city, and on Tuesday took him to Coloma. Judge Johnson examined him, when it appeared that his name is Philemon Notts, that he is forty-nine years of age, was from Maryland to this State, that he lived at Sugar Loaf Hill, near El Dorado, and had gone from there to the mountains about two weeks ago. He said that he was under the "mesmeric influence" of a man at Sugar Loaf Hill, and was forced by him to wander about in the mountains. Judge Johnson ordered that he be conveyed to the State Insane Asylum.—*Ib.*

AN IMPORTANT DECISION—GOV. JOHNSON'S POWER.—The San Joaquin *Republican* says: In the matter of the Attorney General at the relation of Dr. Langdon against Dr. Reid, Judge Creanor has decided, after full argument, that the Governor's appointment of Dr. Langdon is void; that there was no vacancy in the office of Resident Physician to the Asylum, authorizing the Governor to commission Dr. Langdon.

FREAKS OF INSANITY.—The Placerville *Democrat*, of Sept. 27th, says:

An insane man named Bennett, an acquaintance of our post master, for whom he had formerly worked, entered the post office on Monday and proceeded to arrange things in most admirable confusion. The post master, knowing and commiserating his melancholy condition, indulged the poor unfortunate in his harmless freaks for some time, but at length becoming annoyed at his work, requested him to desist. This request greatly enraged him, and he ordered the post master out of the office, declaring that the building belonged to him, and that he was post master. The post master mildly ordered him to leave, when he grabbed the money chest and flourishing a pistol advanced in a threatening manner towards the post master. Fortunately, at this moment Marshal Burwell entered the office, and he and the post master, after a severe struggle, succeeded in disarming the poor fellow. He was taken to the station house, examined by Judge Johnson, and on Thursday sent to Stockton.
